

SR#	Test Scenario	Test Cases	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
EC1	Verify Customer id	Customer id cannot be empty	1) Do not enter a value in Customer id Field	N/A	An error message "Customer ID is required" must be shown	System displays error message "Customer	PASS
EC2	Verify Customer id	Customer id must be numeric	1) Enter character value in Customer id Field	1234Acc	An error message "Characters are not allowed" must be shown	System does not display any of the error	FAIL
EC3	Verify Customer id	Customer id cannot have special character	1) Enter Special Character In Customer id	123!@#	An error message "Special characters are not allowed" must be shown	System displays error message "Special	PASS
EC4	Verify Customer id	Valid Customer Id	1) Enter valid Customer id	xyz	Edit Customer successfully redirect to Edit Customer Page	System displays error message "Connection	FAIL
EC5	Verify Name Field	Name field cannot be empty	1) Do not enter a value in NAME Field	N/A	An error message "Name cannot be empty" must be shown	Cannot be executed due to connection error	Build 2.0
EC6	Verify Name Field	Name cannot be numeric	1) Enter numeric value in NAME Field	1234	An error message "Name cannot contain numbers" must be shown	Cannot be executed due to connection error	Build 2.0
EC7	Verify Name Field	Name cannot have	1) Enter Special Character In NAME Field	name!@#	An error message "Name cannot contain Special Characters" must be shown	Cannot be executed due to connection error	Build 2.0
EC8	Verify Address Field	Address cannot be empty	1) Do not enter a value in ADDRESS Field	N/A	An error message "ADDRESS cannot be empty" must be shown	Cannot be executed due to connection error	Build 2.0
EC9	Verify City Field	City cannot be empty	1) Do not enter a value in CITY Field	N/A	An error message "CITY cannot be empty" must be shown	Cannot be executed due to connection error	Build 2.0
EC10	Verify City Field	City cannot be numeric	1) Enter numeric value in CITY Field	1234	An error message "City cannot contain Number" must be shown	Cannot be executed due to connection error	Build 2.0
EC11	Verify City Field	City cannot have special	1) Enter Special Character In CITY Field	City!@#	An error message "City cannot contain Special Characters" must be shown	Cannot be executed due to connection error	Build 2.0
EC12	Verify State Field	state cannot be empty	1) Do not enter a value in STATE Field	N/A	An error message "STATE cannot be empty" must be shown	Cannot be executed due to connection error	Build 2.0
EC13	Verify State Field	State cannot be numeric	1) Enter numeric value in STATE Field	1234	An error message "Numbers are not allowed" must be shown	Cannot be executed due to connection error	Build 2.0
EC14	Verify State Field	State cannot have special	1) Enter Special Character In STATE Field	State!@#	An error message "City cannot contain Special Characters" must be shown	Cannot be executed due to connection error	Build 2.0
EC15	Verify PIN Field	PIN must be numeric	1) Enter character value in PIN Field	1234	An error message "PIN cannot contain character" must be shown	Cannot be executed due to connection error	Build 2.0
EC16	Verify PIN Field	PIN cannot be empty	1) Do not enter a value in PIN Field	N/A	An error message "PIN cannot be empty" must be shown	Cannot be executed due to connection error	Build 2.0
EC17	Verify PIN Field	PIN must have 6 digits	1) Enter More than 6 digit in PIN field	1234567	An error message "PIN must contain 6 digit"	Cannot be executed due to connection error	Build 2.0
EC18	Verify Customer ID Field	Check if the system displays the error message when customer ID has blank spaces	1) Enter blank spaces into customer ID	123 432	An error message "Customer ID cannot have blank spaces" must be shown	System does not display any of the error	FAIL
EC19	Verify Telephone Field	Telephone cannot be empty	1) Do not enter a value in Telephone Field	N/A	An error message "Telephone cannot be empty" must be shown	Cannot be executed due to connection error	Build 2.0
EC20	Verify Telephone Field	An error message "Telephone cannot contain characters" must be shown	1) Enter Special Character In PIN Field	886636!@12	An error message "Telephone cannot contain Special Characters" must be shown	Cannot be executed due to connection error	Build 2.0
EC21	Verify Email Field	Email cannot be empty	1) Do not enter a value in Email Field	N/A	An error message "Email cannot be empty" must be shown	Cannot be executed due to connection error	Build 2.0
EC22	Verify Email Field	Email must be in format career@guru99.com	Enter invalid email in Email field	guru99@gmail	An error message "Email must be in format example@example.com" must be shown	Cannot be executed due to connection error	Build 2.0
EC23	Verify Email Field	Email must be in format career@guru99.com	Enter invalid email in Email field	guru99@gmail	An error message "Email must be in format Example@example.com" must be shown	Cannot be executed due to connection error	Build 2.0
EC24	Verify Customer ID Field	Check if system displays error message when user inserts space as first character into Customer ID	1) Insert space as first character	N/A	An error message "Customer ID is required" must be shown	System does not display any of the error	FAIL
EC25	Verify Customer ID Field	Check if system displays error message when a manager acceses a customer ID that is not associated	1) Enter a Customer ID that is not	Customer ID	An error message should be shown "Customer ID not associated with manager"	v2	Build 2.0
EC27	Verify Customer Name	Check if system displays error message when user inserts space as first character into Customer Name	1) Enter space as first character	N/A	An error message should be shown "First character cannot be space"	Cannot be executed due to connection error	Build 2.0
EC28	Verify Adress Field	Check if system displays error message when a user inserts space as first character into the Adress field	1) Enter space as first character	N/A	An error message should be shown "First character cannot be space"	Cannot be executed due to connection error	Build 2.0
EC29	Verify Adress Field	Check if system displays error message when user inserts special characters into the adress field	1) Enter special characters into the Adress	!@##\$%%	An error message should be shown "special characters are not allowed"	Cannot be executed due to connection error	Build 2.0
EC30	Verify City Field	Check if system displays error message when first character is space in City Field	1) Enter space as first character	N/A	An error message should appear "first character cannot be space"	Cannot be executed due to connection error	Build 2.0
EC31	Verify State Field	Check if system displays error message when a user inserts space as first character into the State field	1) Enter space as first character	N/A	An error message should appear "first character cannot be space"	Cannot be executed due to connection error	Build 2.0
EC32	Verify PIN Field	Check if the system displays error message when user inserts space as first character	1) Enter space as first character	N/A	An error message should appear "first character cannot be space"	Cannot be executed due to connection error	Build 2.0
EC33	Verify Telephone Field	Check if the system displays error message when user enters characters into the Telephone Field	1) Enter characters into Telephone field	ABCD	An error message "Telephone cannot contain characters" must be shown	Cannot be executed due to connection error	Build 2.0

EC34	Verify Telephone Field	Check if the system displays error message when user inserts space as first character into the Telephone	1) Enter space as first character	N/A	An error message should appear "first character cannot be space"	Cannot be executed due to connection error	Build 2.0
EC35	Verify Email Field	Check if the system displays error message when user inserts space as first character	1) Enter space as first character	N/A	An error message should appear "first character cannot be space"	Cannot be executed due to connection error	Build 2.0
EC36	Verify Email Field	Check if the system displays error message when user enters an existing Email ID	1) Enter an existing Email ID; 2) Press	Existing Email	An error should appear "This Email ID already exists"	Cannot be executed due to connection error	Build 2.0
EC37	Verify Gender field	Check if the system displays error message when gender field is unselected	1) Do not select gender; 2) press Tab	N/A	An error message should appear "Gender must be selected"	Cannot be executed due to connection error	Build 2.0
EC38	Verify PIN Field	PIN cannot have special character	1) Enter Special Character In PIN Field	!@#	An error message "PIN cannot contain Special Characters" must be shown	Cannot be executed due to connection error	V2
EC39	Verify Edit customer	Check if the system clears the data when reset button is clicked	1) Enter data into field; 2) Tap reset button	Any data	System should be deleting data	Cannot be executed due to connection error	V2
EC40	Verify field labels	Check all fields name (label) are as documented in SRS for all modules	Cross check Field names with that in SRS	N/A	Field names in SRS and system should match	Cannot be executed due to connection error	V2
