

SR#	Test Scenario	Test Cases	Test Steps	Test Data	Expected Result	Actual Result	Pass/Fail
ST1	Check login function	Verify the system redirects user to the manager module when providing valid data	1. Access https://demo.guru99.com/V3/index.php 2. Enter valid manager account; 3. Tap on "Login"	mngr527294 nyqAhUj	System should redirect user to the manager module and display the following system message "Welcome To Manager's Page of Guru99 Bank"	System redirects user to the manager module and display the following system message "Welcome To Manager's Page of Guru99 Bank"	PASS
ST2	Check login function	Verify the system displays error message when user enters nonexistent user account	1. Access https://demo.guru99.com/V3/index.php 2. Enter nonexistent manager account; 3. Tap on "Login"	mngr527291 nyqAhUp	System should display error message as following "User is not valid"	System displays the proper error message "User is not valid"	PASS
ST3	Check logout function	Verify the system displays the proper system message when user logs out from account	1. Access https://demo.guru99.com/V3/index.php 2. Enter valid account data; 3. Tap on "Login"; 4. After accessing account, tap on "Logout"	mngr527294 nyqAhUj	System should display the following message "You Have Successfully Logged Out!!"	System displays the proper system message as following "You have successfully logged out!!"	PASS

ST4	Check login function	Verify the system does not access a deleted customer	1. Access https://demo.guru99.com/V3/index.php 2. Enter user ID and password of a deleted customer; 3. Tap on "Login"	deleted customer data	System should display error message as following "User is not valid"	Cannot be executed due to "Delete Customer" module functionality error	FAIL
ST4.1	Check login function	Verify the system allows proper access to an account that has been recently edited	1. Access https://demo.guru99.com/V3/index.php 2. Enter User ID and Password of an account that has been recently edited; 3. Click on Submit	Details of an account that has been recently edited	System should redirect user to the customer main page	Cannot be executed	FAIL
ST5	Check "New Customer" functionality	Verify system displays the proper system message when manager creates a new customer and displays customer details	1. Access https://demo.guru99.com/V3/index.php 2. Enter user ID and password of manager; 3. Tap on "Login"; 4. Click on "New Customer" mod; 5. Complete fields with proper data; 6. Click on Submit	Customer Name: Ion Bivol Gender: male Birthdate: 1985-09-04 Address: Chisinaului 6 City: Chisinau State: Republica Moldova Pin: 491920 Mobile No: 0759281241 Email: ionbivol85@gmail.com	System should display system message as following "Customer Registered Successfully!!!" and displays customer details	System displays message as following "Customer Registered Successfully!!!" and displays customer details	PASS

ST6	Check "New Customer" functionality	Verify system displays the proper error message when the manager tries to create a customer with an existing email ID	1. Access https://demo.guru99.com/V3/index.php 2. Enter user ID and password of manager; 3. Tap on "Login"; 4. Click on "New Customer" mod; 5. Complete fields with proper data and existing email ID; 6. Click on Submit	Customer Name: Patricia Botezatu Gender: female Birthdate: 1985-09-04 Address: Alecu Russo 46C City: Bacau State: Romania Pin: 491921 Mobile No: 0759281256 Email: ionbivol85@gmail.com	System should display error message as following "Email Address Already Exist !!"	System displays the proper error message "Email Address Already Exist !!"	PASS
ST7	Check "Edit Customer" functionality	Verify the system displays proper system message when a manager edited a customer	1. Access https://demo.guru99.com/V3/manager/EditCustomer.php 2. Provide valid "Customer ID"; 3. Make changes to the customer details; 4. Click on "Submit"	Mariana Petroiu female 2002-09-05 Stefan cel Mare 7C Iasi Romania 672134 0793821321 petroiu_mariana2@gmail.com	System should display the following message "Customer edited successfully!"	System displays wrong error message as following "No Changes made to Customer records"	FAIL
ST8	Check "Edit Customer" functionality	Verify system displays proper error message when a manager edits a customer when an existing email ID from database	1. Access https://demo.guru99.com/V3/manager/EditCustomer.php 2. Provide valid "Customer ID"; 3. Make changes to the customer details (replace with an existing email ID); 4. Click on "Submit"	Mariana Petroiu female 2002-09-05 Stefan cel Mare 7B Calarasi Bulgaria 672132 0793821321 ionbivol85@gmail.com	System should display the following error message "Email ID already exists"	System displays wrong error message as following "No Changes made to Customer records" and edits the customer details with existing email ID	FAIL

ST9	Check "Edit Customer" functionality	Verify system displays proper error message when invalid "Customer ID" is entered	1. Access https://demo.guru99.com/V3/manager/EditCustomer.php 2. Provide invalid "Customer ID"; 3. Click on "Submit"	41476	System should display the following error message "You are not authorize to edit this customer!!"	System displays the proper error message "You are not authorize to edit this customer!!"	PASS
ST10	Check "Edit Customer" functionality	Verify system cannot access page of a deleted customer	1. Access https://demo.guru99.com/V3/manager/EditCustomer.php 2. Provide ID of a deleted customer; 3. Click on "Submit"	Deleted Customer ID	System should display the following error message "Customer does not exists"	Cannot be executed due to "Delete Customer" module functionality error	FAIL
ST11	Check "Delete Customer" functionality	Verify that the system will display the proper system message after deleting an existing customer	1. Access https://demo.guru99.com/V3/manager/DeleteCustomerInput.php ; 2. Enter valid customer ID into the field; 3. Tap on "Submit"	45285	System should display the following system message "Customer deleted succesfully! !!"	System displays the wrong error message after deleting an existing customer "Customer does not Exist!!!"	FAIL

ST12	Check "Delete Customer" functionality	Verify that the system will display the proper error message after trying to delete a previous deleted customer	1. Access https://demo.guru99.com/V3/manager/DeleteCustomerInput.php ; 2. Enter a previous deleted customer ID; 3. Tap on "Submit"	45285	System should display the following error message "Customer does not Exist!!!"	System displays the proper error message "Customer does not Exist!!!"	PASS
ST13	Check "Delete Customer" functionality	Verify that the system will display the proper error message after trying to delete a non-existing / invalid customer	1. Access https://demo.guru99.com/V3/manager/DeleteCustomerInput.php ; 2. Enter non-existing / invalid customer ID; 3. Tap on "Submit"	69200	System should display the following error message "Customer does not exists"	System displays the wrong error message "You are not authorize to delete this customer!!"	FAIL
ST14	Check "Delete Customer" functionality	Verify that the system will pop-up with the proper system message when trying to delete a customer with an active account	1. Access https://demo.guru99.com/V3/manager/DeleteCustomerInput.php ; 2. Enter valid customer ID associated with an active account; 3. Tap on "Submit"	420	System should display the following error message "Customer could not be deleted!!! First delete all accounts of this customer then delete the customer"	System displays the proper error message "Customer could not be deleted!!!. First delete all accounts of this customer then delete the customer"	PASS

ST15	Check "Delete Customer" functionality	Verify that the system will display the confirmation pop-up when trying to delete a customer	1. Access https://demo.guru99.com/V3/manager/DeleteCustomerInput.php ; 2. Enter valid customer ID; 3. Tap on "Submit"	Valid customer ID	System should display the following message "Do you really want to delete this customer?"	No confirmation message is shown	FAIL
ST16	Check "New Account" functionality	Verify that the system will display the proper system message and details of the account after creating it	1. Access https://demo.guru99.com/V3/manager/addAccount.php ; 2. Enter valid Customer ID and value ≥ 500 ; 3. Tap "Submit"	Valid customer ID & value ≥ 500	System should be displaying the details of the customer's account and proper system message "Account Generated Successfully!!!"	System displays the proper system message "Account Generated Successfully!!!" and shows the details of the new customer's account	PASS
ST17	Check "New Account" functionality	Verify that the system will display the proper error message when trying to create an account for a deleted customer	1. Access https://demo.guru99.com/V3/manager/addAccount.php ; 2. Deleted customer ID; 3. Tap "Submit"	Deleted customer ID	System should be displaying the following error message "Customer does not exist!!"	System displays the proper error message "Customer does not exist!!"	PASS

Test Step	Description	Preconditions	Test Data / Action	Expected Result	Actual Result	Notes	Status
ST18	Check "New Account" functionality	Verify that the system will display the proper error message when trying to create an account for an invalid customer ID	1. Access https://demo.guru99.com/V3/manager/addAccount.php ; 2. Enter invalid Customer ID; 3. Tap "Submit"	Invalid customer ID	System should be displaying the following error message "Customer does not exist!!"	System displays the proper error message "Customer does not exist!!"	PASS
ST19	Check "New Account" functionality	Verify that the system will display the proper error message when creating an account for an existing customer with less than 500 deposit	1. Access https://demo.guru99.com/V3/manager/addAccount.php ; 2. Enter valid Customer ID; 3. Introduce deposit value less than 500; 4. Tap "Submit"	499	System should be displaying the following error message "Initial deposit must be 500 or more"	System displays the wrong error message as following "Intial deposite must be Rs. 500 or more"	FAIL
ST20	Check "Edit account" functionality	Verify that the system will display submitted account details after accessing it	1. Access https://demo.guru99.com/V3/manager/editAccount.php ; 2. Enter valid account no; 3. Click on "Submit"	Valid account no.	System should be displaying the details page of the account submitted	System displays blank page	FAIL

ST21	Check "Edit account" functionality	Verify that the system will display the proper system message after editing an account	1. Access https://demo.guru99.com/V3/manager/editAccount.php ; 2. Enter valid account no; 3. Click on "Submit"	Valid account no.	System should be displaying the following system message "Account edited successfully!!!"	Cannot be executed due to module error (blank page)	FAIL
ST22	Check "Edit account" functionality	Verify that the system will display the proper error message when submitting an invalid account no.	1. Access https://demo.guru99.com/V3/manager/editAccount.php ; 2. Enter invalid account no; 3. Click on "Submit"	Invalid account no.	System should be displaying the following error message "Account no. does not exist"	Cannot be executed due to module error (blank page)	FAIL
ST23	Check "Edit account" functionality	Verify that the system will display the proper error message when submitting a deleted account no.	1. Access https://demo.guru99.com/V3/manager/editAccount.php ; 2. Enter deleted account no; 3. Click on "Submit"	Deleted account no.	System should be displaying the following error message "Account no. does not exist"	Cannot be executed due to module error (blank page)	FAIL

ST24	Check "Delete account" functionality	Verify that the system will display the proper system message after deleting an account	1. Access https://demo.guru99.com/V3/manager/deleteAccountInput.php ; 2. Enter valid account no; 3. Click on "Submit"	Valid account no.	System should be displaying the following system message "Account no. deleted successfully"	System displays blank page	FAIL
ST25	Check "Delete account" functionality	Verify that the system will display the proper pop-up message when trying to delete an account	1. Access https://demo.guru99.com/V3/manager/deleteAccountInput.php ; 2. Enter valid account no; 3. Click on "Submit"	Valid account no.	System should be displaying the following system message "Do you really want to delete this account?"	System displays blank page	FAIL
ST26	Check "Delete account" functionality	Verify that the system will display the proper error message when trying to delete an invalid account no.	1. Access https://demo.guru99.com/V3/manager/deleteAccountInput.php ; 2. Enter invalid account no; 3. Click on "Submit"	Invalid account no.	System should be displaying an error message "Account does not exist"	System displays blank page	FAIL

ST27	Check "Deposit" functionality	Verify that the system can deposit to another account	1. Access https://demo.guru99.com/V3/manager/DepositInput.php ; 2. Complete fields with valid data; 3. Click on "Submit"	Valid data	1) Message - "Transaction details of Deposit for Account xyz"; 2) Details of deposit	System displays blank page	FAIL
ST28	Check "Deposit" functionality	Verify Deposit cannot be made by reload the Deposit detail page	1. Access https://demo.guru99.com/V3/manager/DepositInput.php ; 2. Complete fields with valid data; 3. Click on "Submit"; 4. Click on "refresh" button	Valid data	Page should redirect to Deposit Page	Not redirecting to deposite page when pressing refresh button	FAIL
ST29	Check "Deposit" functionality	Verify that the system will display the proper error message when submitting an invalid account no.	1. Access https://demo.guru99.com/V3/manager/DepositInput.php ; 2. Complete fields with invalid account no; 3. Click on "Submit"	Invalid account no.	System should be displaying the proper error message "Account does not exist"	System displays blank page	FAIL

ST30	Check "Deposit" functionality	Verify that the system will display the proper error message when submitting a deleted account no.	1. Access https://demo.guru99.com/V3/manager/DepositInput.php ; 2. Complete fields with deleted account no; 3. Click on "Submit"	Deleted account no.	System should be displaying the proper error message "Account does not exist"	System displays blank page	FAIL
ST31	Check "Withdrawal" functionality	Verify that the system can withdraw an amount from a valid account	1. Access https://demo.guru99.com/V3/manager/WithdrawalInput.php ; 2. Enter valid data; 3. Click on "Submit"	Valid data	"1) Message - ""Transaction details of Withdrawal for Account xyz"" 2) Details of withdrawal"	System displays blank page	FAIL
ST32	Check "Withdrawal" functionality	Verify that the system will display the proper error message when withdraw amount is greater than the account balance	1. Access https://demo.guru99.com/V3/manager/WithdrawalInput.php ; 2. Enter amount greater than account balance; 3. Click on "Submit"	Withdraw amount greater than account balance	System should be displaying the following error message "Insufficient funds!!!"	System displays blank page	FAIL

Test ID	Test Case Description	Test Data	Expected Result	Actual Result	Notes	Status	
ST33	Check "Withdrawal" functionality	Verify that the system will display the proper error message when submitting an invalid account no.	1. Access https://demo.guru99.com/V3/manager/WithdrawalInput.php ; 2. Enter invalid account no; 3. Click on "Submit"	Invalid account no.	System should be displaying the following error message "Account no. does not exist"	System displays blank page	FAIL
ST34	Check "Withdrawal" functionality	Verify that the system will display the proper error message when submitting a deleted account no.	1. Access https://demo.guru99.com/V3/manager/WithdrawalInput.php ; 2. Enter deleted account no; 3. Click on "Submit"	Deleted account no.	System should be displaying the following error message "Account no. does not exist"	System displays blank page	FAIL
ST35	Check "Fund transfer" functionality	Verify that the system will display details of fund transfer after submitting (with valid data)	1. Access https://demo.guru99.com/V3/manager/FundTransInput.php ; 2. Provide fields with valid data; 3. Click on "Submit"	Valid data	System should display the following message "Fund Transfer Details for Account No ..." and show details of the transfer	System displays the proper detail page of transfer	PASS

ST36	Check "Fund transfer" functionality	Verify that the system will display the proper error message when account numbers are invalid / non-existent	1. Access https://demo.guru99.com/V3/manager/FundTransInput.php ; 2. Provide fields with invalid account numbers; 3. Click on "Submit"	Invalid account numbers	System should be displaying the following error message "Account does not exist"	System displays the wrong error message as following "No details found for this accounts !!!"	FAIL
ST37	Check "Fund transfer" functionality	Verify that the system will display the proper error message when source and destination account numbers are the same and submitted	1. Access https://demo.guru99.com/V3/manager/FundTransInput.php ; 2. Provide fields with same account numbers; 3. Click on "Submit"	127523; 127523	System should be displaying the following error message "Payers account No and Payees account No Must Not be Same!!!"	System does the fund transfer and does not display any error message	FAIL
ST38	Check "Fund transfer" functionality	Verify that the system will display the proper error message when source account number transfers an amount that is greater than the existing amount	1. Access https://demo.guru99.com/V3/manager/FundTransInput.php ; 2. Provide the field with an amount that is greater than the current; 3. Click on "Submit"	Amount to be transferred is greater than the current	System should be displaying the following error message "Transfer Failed. Account Balance low!!"	System provide the wrong error message as following "You cant Transfer your account balance is low!!!"	FAIL

ST39	Check "Fund transfer" functionality	Verify that the system will display the proper error message when trying to transfer funds with deleted account numbers	1. Access https://demo.guru99.com/V3/manager/FundTransInput.php ; 2. Provide fields with deleted account numbers; 3. Click on "Submit"	Deleted account numbers	System should be displaying the following error message "Account does not exist"	Cannot be executed due to "Delete account" functionality error	FAIL
ST40	Check "Fund transfer" functionality	Verify Fund Transfer is not done again when page is reloaded	1. Access https://demo.guru99.com/V3/manager/FundTransInput.php ; 2. Provide fields with valid data; 3. Click on "Submit"; 4. Reload page	Valid data	Page should redirect to fund transfer page	Not redirecting to fund transfer page on clicking refresh button. When checking ministatement, it is observed that transfer is done twice	FAIL
ST41	Check "Change Password" functionality	Verify that the system will display the proper system message when user manager changes his password	1. Access https://demo.guru99.com/V3/manager/PasswordInput.php ; 2. Provide fields with valid data; 3. Click on "Submit"	Valid data	System should display the following system message "Password is Changed"	System displays the proper system message "Password is Changed"	PASS

Test ID	Test Case Description	Test Scenario	Test Steps	Test Data	Expected Result	Actual Result	Status
ST42	Check "Change Password" functionality	Verify that the system will display the proper error message when change password is submitted with an incorrect old password	1. Access https://demo.guru99.com/V3/manager/PasswordInput.php ; 2. Provide field "Old password" with invalid password; 3. Click on "Submit"	Invalid old password	System should display the following error message "Old Password is incorrect"	System displays the proper error message as following "Old Password is incorrect"	PASS
ST43	Check "Change Password" functionality	Verify system behavior when old password is the same with new password and then submitted	1. Access https://demo.guru99.com/V3/manager/PasswordInput.php ; 2. Provide field "Old password" with the same data as field "New password"; 3. Click on "Submit"	Same data for "Old password" and "New password" fields	System should display the following error message "New password cannot be the same!!!"	System displays the wrong message as following "Password is Changed"	FAIL
ST44	Check "Change Password" functionality	Verify that after changing the password, the system will redirect user to the login page	1. Access https://demo.guru99.com/V3/manager/PasswordInput.php ; 2. Provide field with valid data; 3. Click on "Submit"	Valid data	System should be redirecting user to the login page	System is redirecting user to the login page	PASS

Test ID	Description	Preconditions	Test Steps	Actual Result	Expected Result	Comments	Status
ST45	Check "Change Password" functionality	Verify that user manager can acces his page with the new password	1. Access https://demo.guru99.com/V3/index.php ; 2. Provide field password with the new one; 3. Click on "Submit"	New password	System should redirect user manager to his homepage	System redirects user manager to the home page	PASS
ST46	Check "Balance Enquiry" functionality	Verify that the system will display the page details of account balance	1. Access https://demo.guru99.com/V3/manager/BalEnqInput.php ; 2. Enter valid account number; 3. Click on "Submit"	127543	System should be displaying the account page details with balance	System displays blank page	FAIL
ST47	Check "Balance Enquiry" functionality	Verify that the system is displaying the proper account balance	1. Check balance of account; 2. Access https://demo.guru99.com/V3/manager/BalEnqInput.php ; 3. Enter valid account number; 4. Click on "Submit"	127543	System should be displaying the account page details with proper balance	System displays blank page	FAIL

Test ID	Test Case Description	Test Steps	Test Result	Actual Result	Notes	Comments	Category
ST48	Check "Balance Enquiry" functionality	Verify that the system will display error message when trying to view balance of an invalid account number	1. Access https://demo.guru99.com/V3/manager/BalEnqInput.php ; 2. Enter invalid account number; 3. Click on "Submit"	512621	System should be displaying an error message as following "Account does not exist"	System displays the proper error message as following "Account does not exist"	PASS
ST49	Check "Balance Enquiry" functionality	Verify that the system will display the proper error message when trying to see balance of a deleted account number	1. Access https://demo.guru99.com/V3/manager/BalEnqInput.php ; 2. Enter deleted account number; 3. Click on "Submit"	127544	System should be displaying an error message as following "Account does not exist"	System displays blank page	FAIL
ST50	Check "Mini Statement" functionality	Verify that the system will display the page with the last transactions of an account	1. Access https://demo.guru99.com/V3/manager/MiniStatementInput.php ; 2. Enter valid account no; 3. Click on "Submit"	127543	System should be displaying the page with the last transaction of an account (with active transactions)	System displays blank page	FAIL

ST51	Check "Mini Statement" functionality	Verify that the system will display the proper error message when submitting an invalid account no.	1. Access https://demo.guru99.com/V3/manager/MiniStatementInput.php ; 2. Enter invalid account no; 3. Click on "Submit"	723412	System should be displaying the following error message "Account does not exist"	System displays the proper error message as following "Account does not exist"	PASS
ST52	Check "Mini Statement" functionality	Verify that the system will display the proper error message when submitting a deleted account no.	1. Access https://demo.guru99.com/V3/manager/MiniStatementInput.php ; 2. Enter deleted account no; 3. Click on "Submit"	127544	System should be displaying the following error message "Account does not exist"	System displays blank page	FAIL
ST53	Check "Mini Statement" functionality	Verify that the system will display the proper error message when submitting an account that has no prior transactions	1. Access https://demo.guru99.com/V3/manager/MiniStatementInput.php ; 2. Enter account no. With no prior transactions; 3. Click on "Submit"	127543	System should be displaying the following error message "Account does not have any active transactions"	System displays blank page	FAIL

ST54	Check "Mini Statement" functionality	Verify that the system will display the proper number of an account active transactions (5)	1. Access https://demo.guru99.com/V3/manager/MiniStatementInput.php ; 2. Enter valid account no; 3. Click on "Submit"	127543	System should be displaying the last 5 transactions	System displays blank page	FAIL
ST55	Check "Customized Statement" functionality	Verify that the system will display the page details for the account's customized statement	1. Access https://demo.guru99.com/V3/manager/CustomisedStatementInput.php ; 2. Enter valid data; 3. Click on "Submit"	Valid data	System should be displaying the page details with the account's customized statement	System displays blank page	FAIL
ST56	Check "Customized Statement" functionality	Verify that the system will display the proper error message when an invalid account no. is submitted	1. Access https://demo.guru99.com/V3/manager/CustomisedStatementInput.php ; 2. Enter invalid account no; 3. Click on "Submit"	613431	System should be displaying the proper error message as following "Account does not exist"	System displays the proper error message "Account does not exist"	PASS

ST57	Check "Customized Statement" functionality	<p>Verify that the system will display the proper error message when a deleted account is submitted</p>	<p>1. Access https://demo.guru99.com/V3/manager/CustomisedStatementInput.php; 2. Enter deleted account no; 3. Click on "Submit"</p>	127544	<p>System should be displaying the proper error message as following "Account does not exist"</p> <p>System displays blank page</p>
ST58	Check "Customized Statement" functionality	<p>Verify that the system will display the proper error message when field "From Date" has a greater value than field "To Date"</p>	<p>1. Access https://demo.guru99.com/V3/manager/CustomisedStatementInput.php; 2. Enter valid account number; 3. Enter value in "From Date" greater than field "To Date"; 4. Click on "Submit"</p>	<p>"From Date" = 28.09.2023; "To Date" = 27.09.2023</p>	<p>System should be displaying the proper error message as following "From date field should be lower than to date field"</p> <p>System displays blank page</p>
